CLOSE TO 1,000 COMPANIES TO SHOWCASE INNOVATIVE SOLUTIONS AT WORLD CITIES SUMMIT, SINGAPORE INTERNATIONAL WATER WEEK AND CLEANENVIRO SUMMIT SINGAPORE 2016

Photo Caption: Dr Tony Tan Keng Yam, President of Singapore Addresses VIPs, dignitaries and guests at the World Cities Summit (WCS), Singapore International Water Week (SIWW) and the CleanEnviro Summit Singapore (CESS)

Singapore, 10 July 2016 – Guest-of-Honour President Tony Tan Keng Yam officially marked the start of the World Cities Summit (WCS), Singapore International Water Week (SIWW) and the CleanEnviro Summit Singapore (CESS) at an opening ceremony held at the Marina Bay Sands Expo & Convention Centre.

President Tony Tan and other dignitaries were given a preview of the key highlights of the three events including the inaugural City Solutions Singapore expo. This integrated global marketplace brings together leading companies and innovative start-ups in the business of urban development, water, and waste and cleaning management to showcase new and cutting-edge solutions for smart nations and urban environments.

Also making its debut at the City Solutions Singapore:

- **Smart Water Solutions Showcase** by national water agency PUB, featuring an array of innovative smart technologies that it is adopting in various aspects of Singapore's water management.
- **Innovation Pitch**, a brand new initiative for the CleanEnviro Summit Singapore 2016, is a platform for entrepreneurs and companies to showcase new technologies, innovations, products and services in the sustainability sphere along the themes of "Waste-as-a-Resource" and "Smart Solutions for the Environment".
- **Water-Energy-Waste Nexus: The Singapore Journey Showcase** will unveil a physical representation of the Deep Tunnel Sewerage System (DTSS) Phase 2 and the Integrated Waste Management Facility (IWMF). This mega project by PUB, and the National Environment Agency of Singapore (NEA), will see the co-location of the Tuas Water Reclamation Plant and the IWMF, the first of its kind in the world to be planned from ground-up.
- **Towards a Smart and Sustainable Singapore pavilion** where over 16 government agencies will come together for the first time in a joint showcase of collaborative efforts in the areas of R&D, urban development, ICT infrastructure, policy-making, capabilities building and ecosystems development to transform Singapore into a safer, more liveable and sustainable place to live, work and play. The pavilion will be open to the public and offer a holistic perspective about Singapore's sustainable development vision.
- **New country pavilions** will join the three events for the first time, including Turkey, Spain, Scotland and the "EU Business Avenues in Southeast Asia" pavilion.

The three events represent a unique integrated platform for industry leaders, policy-makers and experts from across the spectrum of cities, water, environment and sustainable development to help shape the global sustainability agenda.

The 5th World Cities Summit, the 7th Singapore International Water Week and the 3rd CleanEnviro Summit Singapore will be held at the Sands Expo and Convention Centre, Marina Bay Sands, from 10-14 July 2016.

(From left to right) Mr Lawrence Wong, Minister for National Development; Mr Masagos Zulkifli, Minister for the Environment and Water Resources; Ms Grace Fu, Minister for Culture, Community and Youth; Dr Johnny Wong, Group Director of the Building Research Institute; and Dr Cheong Koon Hean, Chief Executive Officer, Housing & Development Board; looking on while Dr Tony Tan Keng Yam, President of the Republic of Singapore interacts with a first of-its-kind content platform comprising an innovative multi-touch Smart Table that provides a unique collaborative browsing experience at the “Towards a Smart and Sustainable Singapore” Pavilion.

(Right) Dr Tony Tan Keng Yam, President of the Republic of Singapore, and (left) Mr Ng Joo Hee, Chief Executive of PUB, toured the Water Innovation Pavilion at the inaugural City Solutions Singapore, a seamless sustainability solutions marketplace launched at this year’s World Cities Summit, Singapore International Water Week and the CleanEnviro Summit Singapore 2016.

Dr Tony Tan Keng Yam, President of the Republic of Singapore, observes a demonstration of Carbon Fibre Aerogel (CFA) technology at work, separating oil from water at the NEA Pavilion. Developed by EcoWorth Tech, a Singapore-based NTU spin-off start-up, the technology recycles waste papers and fibres into a highly-absorbent and reusable material for wastewater and food waste treatment.

##

About World Cities Summit, Singapore International Water Week, and CleanEnviro Summit Singapore

WCS, SIWW and CESS will be held concurrently from 10-14 July 2016 at the Sands Expo and Convention Centre, Marina Bay Sands. The three events provide a unique integrated global platform for government and industry leaders to share solutions for sustainable urban development and the latest innovations in water and clean environment solutions. Exhibitors and participants would be able to explore synergies, network and forge partnerships with a wider range of global industry leaders, policy-makers and experts. Together, the three events showcase global thought leadership in sustainable development. For more information, visit: www.worldcitiessummit.com.sg, www.siww.com.sg, www.cleanenviros Summit.sg
